directs that a municipality be
constituted in Kallinkatte

Note for the
Dewan —

The Dy Conr of Shemuga recommends the establt of a municipality at Kallai Kattu which has recently become the Hd Quarters of a Taluq. The present net Municipal Revenue of the town is only 88 Rs, but when it becomes a municipality it is likely to increase to Rs 263, as privileged classes will be taxed. From Cattle Pounds from about Rs 70 are expected. So, the total Revenue will be Rs 330. Considering the small amount of

Revenue, I hasten to sanction the proposal & send it the matter might lie over till the Municipal Act is passed. If the Govt agree press the matter — I know no objection to the Municipality being established, provided the Govern will sanction the grant of the entire Distribution to the Municipality, as the funds will otherwise not be enough. The Sacrifice involved is only Rs 88. —

I do not propose like to have these wretched small Municipalities, but all these small

Sir,

I have the honor to state that it is now little more than a year that the Nagar Taluk Cutcherry was transferred to Kallurkatte and the town is rising into importance. It is on the high road to several market places on the coast where a weekly market is held. In fact this town where four roads to different centres of trade meet together is gradually becoming a busy place.

2. The Amildar of the Taluk made an attempt but without success to induce the people to employ a couple of Sweepers for the present to keep the streets clean. For want of proper conservancy establishment the few streets which

the town has are always left unswept and the roads and drains are in a state of disrepair. On the occasion of my last visit I assembled all the townspeople and proposed to them to have the town constituted into a Minor Municipality to which they readily agreed, but prayed that the introduction of the system of levying octroi duty on piece goods &ca. be deferred for a time.

3. The town has two main streets with a few bye lanes and some detached houses and the length of the roads to be maintained will be nearly two miles. The population as per current year's Shanesummari is 400 in round numbers and the number of houses including public buildings, temples &ca is 86. The Chowkidari tax now collected on houses, shops &c is Rupees 88 and it will come to rupees 263/4 if all the houses are

To The Dy Commissioner
Shimoga Dist.

Sir,

With reference to para 2 of Government Proceedings No 185-10 / Ft 66-93 dated 2d ultimo, received with your No 2531 dy 29th Idem, I have the honor to state that I had, with my letter No. 469 dy 6th February last, submitted proposals for establishing a municipality in the town of Kalushatté. But the Government in its Proceedings No 14209 / Ft 245-92 dy 23d Idem ordered that the question should lie over till the Draft Municipal Regulation is passed into Law.

2. I take this opportunity to bring to your notice that the townspeople are desirous that a municipality

should be established to prevent the town getting into insanitary condition. You are aware, that the population is steadily on the increase in this little town, and if simple sanitary arrangements are not gradually introduced, it will be a difficult task to attend to all the requirements in one and the same time. I would therefore urge that you will move the Government to sanction the introduction of a municipality under the existing rules, at an early date.

3. A statement shewing the probable receipts and expenditure is submitted with my letter quoted above, and it will be seen therefrom that the income of the proposed municipality will be just sufficient to maintain a couple of years to keep the streets clean, and to lay out a small sum for the repairs

of roads and drains. And I need hardly say, that these simple sanitary arrangements are absolutely necessary in a place which is a Taluk Head Quarter, and in which a Weekly Market is held.
